

This week we have revisited 2D and 3D shapes. Identifying them by name and using mathematical language to describe them. This week's homework is a
3D Shape Challenge!

Search around your home and see if you can find objects that are the same shapes as these:

Cylinder 	
Cone 	
Cube 	
Sphere 	

Photograph or draw and label your objects next to the shape names!

Please return the homework week beginning Monday 26th June
