

Reception Homework  
09.06.17

## Materials

Next week at school your child will be learning about common everyday materials.

For this week's homework task we would like you to help your child identify and name everyday materials which they can see in and around their home. For example;

Wood	Metal	Plastic	Glass	Paper	Fabric
					

Please help and encourage your child to record their findings. This could be done through labelled drawings of the materials found, photographs, or written in a table.

Please ensure your child's homework is returned to school the week beginning Monday 12<sup>th</sup> June.

With thanks,  
Sue and Jacqui
